

CARTER COUNTY, KENTUCKY

The 2020 Census is coming, and your population has changed:

- **-716** estimated population **loss** for your county
- **-4,660** estimated **loss** for counties in Kentucky Senate District 18
- **-1,005** estimated **loss** for counties in Kentucky House District 96

How will your legislative districts be changed? Will your voice be heard?

Visit lwvky.org for ideas on how to build fair maps for Kentucky districts.

What is redistricting?

After the 2020 Census, Kentucky will draw new maps to show which parts of the state elect each member of the Kentucky House, Kentucky Senate, and U.S. House of Representatives. That process is called redistricting, and it is likely to change the districts that represent you and others in Carter County.

How can we estimate population changes before the 2020 Census?

The American Community Survey, conducted by the Census Bureau, provides county population estimates each year. Using the 2018 data, this County Estimate Report gives an initial idea of what is happening in your county and how redistricting may affect your area.

Looking at the big picture, what are the estimated population changes from 2010 to 2018?

- The fifty-state population increased 5.9%, adding an estimated 18,321,164 people.
- The Kentucky population increased 3.0%, adding an estimated 129,035 people.
- For the counties east of I-75 as a group, population decreased 3.6%, losing an estimated 31,740 people.
- For Carter and other counties that share your Senate and House districts, estimated changes are shown on the next page.

How can you work for fair redistricting?

The League of Women Voters of Kentucky has lots of ideas. Please contact us at www.lwvky.org, kentuckylwv@gmail.com, or 502/875-6481 for more information on Kentucky redistricting and ways to participate in seeking fair maps for Carter County and all of Kentucky.

For Carter County's Senate seat, what are the estimated changes?

When Kentucky used 2010 Census data to redistrict, each Senate seat needed between 108,484 and 119,904 people. If we used the 2018 estimates, each seat would need to be larger, with between 111,710 and 123,469 people. With estimated population losses in all three counties, Senate District 18 is likely to be below the minimum required size for a Kentucky Senate seat. Here are the numbers for each county in the district:

COUNTIES INCLUDED IN SENATE DISTRICT 18				
County	2010 Count	2018 Estimate	Change	% Change
Boyd	49,542	47,240	-2,302	-4.6%
Carter	27,720	27,004	-716	-2.6%
Greenup	36,910	35,268	-1,642	-4.4%
Total	114,172	109,512	-4,660	-4.1%

For Carter County's House seat, what are the estimated changes?

When Kentucky used 2010 Census data, each House seat needed between 41,224 and 45,563 people. With 2018 estimates, each seat would need to be between 42,450 and 46,918 people. With estimated losses in both counties, House District 96 may still be within the allowed size range for Kentucky House seats, but any further losses shown in the 2020 Census could move the district below the allowed size. Again, here are the county-by-county numbers:

COUNTIES INCLUDED IN HOUSE DISTRICT 96				
County	2010 Count	2018 Estimate	Change	% Change
Carter	27,720	27,004	-716	-2.6%
Lawrence	15,860	15,571	-289	-1.8%
Total	43,580	42,575	-1,005	-2.3%

Is there information like this for other counties?

Yes. Please visit lwvky.org/redistricting-in-kentucky to see County Estimate Reports like this for every county in the commonwealth and find more information on data sources for these documents.
