Visit lwvky.org for ideas on how to build fair maps for Kentucky districts.

What is redistricting?

After the 2020 Census, Kentucky will draw new maps to show which parts of the state elect each member of the Kentucky House, Kentucky Senate, and U.S. House of Representatives. That process is called redistricting, and it is likely to change the districts that represent you and others in Warren County.

How can we estimate population changes before the 2020 Census?

The American Community Survey, conducted by the Census Bureau, provides county population estimates each year. Using the 2018 data, this County Estimate Report gives an initial idea of what is happening in your county and how redistricting may affect your area.

Looking at the big picture, what are the estimated population changes from 2010 to 2018?

- The fifty-state population increased 5.9%, adding an estimated 18,321,164 people.
- The Kentucky population increased 3.0%, adding an estimated 129,035 people.
- For the counties along I-65 as a group, population increased 5.5%, adding an estimated 62,595 people.
- For Warren and other counties that share your Senate and House districts, estimated changes are shown on the next page.

How can you work for fair redistricting?

The League of Women Voters of Kentucky has lots of ideas. Please contact us at www.lwvky.org, kentuckylwv@gmail.com, or 502/875-6481 for more information on Kentucky redistricting and ways to participate in seeking fair maps for Warren County and all of Kentucky.

For Warren County’s Senate seat, what are the estimated changes?

When Kentucky used 2010 Census data to redistrict, each Senate seat needed between 108,484 and 119,904 people. If we used the 2018 estimates, each seat would need to be larger, with between 111,710 and 123,469 people. Based on 2010 population, Warren County was the right size to have its own Senate seat. With recent estimated growth, Warren is likely to be larger than the maximum allowed size for a Kentucky Senate seat, requiring the county to be divided. Here are the numbers for each county in the district:

ONE COUNTY IN SENATE DISTRICT 32				
County	2010 Count	2018 Estimate	Change	% Change
Warren	113,792	131,264	17,472	15.4%

For Warren County’s House seats, what are the estimated changes?

When Kentucky used 2010 Census data, each House seat needed between 41,224 and 45,563 people. With 2018 estimates, each seat would need to be between 42,450 and 46,918 people. Warren County is served by six House seats. Seven of the eight counties in those districts have estimated population losses, making redistricting changes likely. Again, here are the county-by-county numbers:

COUNTIES IN HOUSE DISTRICTS THAT INCLUDE WARREN					
County	District	2010 Count	2018 Estimate	Change	% Change
Allen	22	19,956	21,122	1,166	5.8%
Logan	16	26,835	26,989	154	0.6%
Todd	16	12,460	12,311	-149	-1.2%
Butler	17	12,690	12,772	82	0.6%
Edmonson	19	12,161	12,274	113	0.9%
Simpson	22	17,327	18,529	1,202	6.9%
Barren	23	42,173	44,176	2,003	4.7%
Warren	16 17 19 20 22 23	113,792	131,264	17,472	15.4%
Total		257,394	279,437	22,043	8.6%

Is there information like this for other counties?

Yes. Please visit lwvky.org/redistricting-in-kentucky to see County Estimate Reports like this for every county in the commonwealth and find more information on data sources for these documents.
